About Client

Kaur Complex is a premium residential project located in Peshawar, offering a secure gated community with over 600 state-of-the-art apartments built to international standards. The complex features modern condominiums, luxury penthouses, and commercial shops, providing residents with a sophisticated and comfortable living experience. With an emphasis on quality and security, Kaur Complex aims to create a tranquil environment for its residents while ensuring their safety.

Requirement

To enhance the security of the Kaur Complex, several key requirements were identified:

Secure Entry Points

Establish a secure entrance for vehicles at the main gate to control access to the parking areas.

Restricted Parking Access

Ensure that only registered vehicles can access the parking spaces to prevent unauthorized entry.

Controlled Access to Residences

Implement a secure access system for residents to enter the main residential areas, including apartments and other facilities within the building.

Solution

ZKTeco provided complete customized solution for their incoming guests, restricted the parking area with a high boom CMP200 Barrier, so only the registered vehicles have access, the petrol guard operates with remote. For inside access for the floors and apartments, ZKTeco installed the best SenseFace 4A with Electromagnetic Lock to restrict their multiple doors on their demand.

Configuration
