

Access Control Solution for Randhawa Tower in Pakistan

Industry

Real estate

Location

Pakistan

Solution

Access Control

About Client

Randhawa Tower is a modern architectural landmark in the New Blue Area of Islamabad, Pakistan, developed in 2022 by Randhawa Developments, established by Muhammad Khalid Randhawa in 1954, known for luxury projects in Islamabad. It is a symbol of the city's evolving commercial landscape and a testament to the legacy of the Randhawa family in Pakistan's real estate development sector.

Requirements

Randhawa Tower wants to control the residents with their registered vehicle at main gate, and with specific floor access through smart elevator access management along with human entrance security for their internal staff at office.
