

Comprehensive Security Solution of Centaurus Mall in Pakistan

Industry

Retail

Location

Pakistan

Solution

Comprehensive Security

Project Introduction:

Centaurus Mall, inaugurated in February 2013, is a landmark mixed-use complex in Islamabad featuring a shopping mall, residential and office towers, and a five-star hotel. Designed by WS Atkins, the mall spans four floors with over 250 local and international brands, dining outlets, a cinema, and family entertainment facilities, making it a premier lifestyle destination in the capital.

ZKTeco, as a leading manufacturer and supplier of Vehicle entrance and access control products, is well-positioned to successfully deliver this solution.

End User Requirement:

Centaurus Mall requires entrance control equipment capable of efficiently managing and securing their facility's entry points, along with an integrated access control solution to support comprehensive record management.
